LIFT EVERY VOICE AND SING The Choir and Audience

Lift every voice and sing
Till earth and heaven ring;
Ring with the harmony of liberty.
Let our rejoicing rise
High as the list'ning skies.
Let it resound loud as the rolling seas.

Sing a song full of the faith that the dark past has taught us.
Sing a song full of the hope that the present has brought us.
Facing the rising sun
Of a new day begun
Let us march on till victory is won.

PLEDGE OF DEVOTION OF THE SENIOR CLASS TO THE UNIVERSITY (Class Standing)

ALUMNI INDUCTION William Hardy, '64
President, CSU General Alumni Association

WHEREAS, Central State University grants to us responsibility and opportunity in the ranks of its graduates:

THEREFORE:

I will continue my devotion and my allegiance throughout the years ahead for the University and will practice its ideals, in appreciation of the opportunities given to me at Central State University.

I will maintain the precepts and standards of my Alma Mater in character and citizenship; and strive to incite a like respect and reverence by others who may disregard them.

I will search for truth, strive for goodness, and build with integrity and competence in the years ahead through the work that I do and my attitude towards it.

I will seek with dignity and courage the better life for others, for myself, for my Alma Mater.

I will transmit the heritage of this University, not less, but greater, better and more beautiful than it was transmitted to me.

I will use my life and my education for the advancement of a more worthy future for our State, our Nation, and our World.

RESPONSE FOR THE CLASS OF '72 Anthony L. Brown
President, Class of '72

PRESENTATION OF ALUMNI AWARD William Hardy, '64

The Merit Award to the Outstanding Alumnus of the Year
WALTER G. SELLERS, '51

THE ALMA MATER

I

O Central dear, we sing of thee
Maker of Men who're free
We build in deeds thy greater name,
We spread thy lasting fame.

II

O Alma Mater, Hail to thee!
Builder of Women to be,
We build for thee in heart and mind,
We seek thy grace divine.

III

O speak to us and we will hear
Thy voice so near, so clear
And as we sail the future's sea
Through the years we'll sing of thee.

CHORUS

O Central mine, we'll sing of thee
Truth and Right our song shall be
Our Alma Mater guides us and it's great
For God, for Central, for State!

Gold Torch cartoons, editorials reflective of campus life

AN EDITORIAL:

1/27/72 Gold Torch

Full Steam Ahead--- In The Wrong Direction

The prevailing concept of Central State University's purpose appears to be that this university should aspire to be a carbon copy of the other 11 state-assisted institutions of higher education in Ohio.

Central State, according to this misguided opinion, should use approximately the same methods, the same ideas, the same tactics, the same strategies, the same dynamics, the same structures--and approximately the same sequence of highways--to arrive at the destination toward which Central students and the students at the other 11 colleges and universities are all moving.

"What's wrong with this?" someone would ask.

The answer is that, figuratively speaking, the Central State student generally is going to Columbus from the Ohio River and students at the other 11 universities are going to Columbus but are proceeding from Lake Erie.

Two different points of origin are concerned.

Psychologically and educationally, the Central State student is far removed from the typical student at the other universities.

He has been the victim of an environment that has denoted that he is an inferior being. His parents' and grandparents' opportunities have been restricted, their financial resources curtailed and their life style twisted into abnormality by the harsh realities and demands of sheer survival.

For that reason many of our students have not been able to develop their behavioristic patterns and self-concepts as fully as have students from other backgrounds.

Moreover, the high schools from which many Central State students have graduated are known to be inferior. The ghetto schools of the large cities are deficient in many areas for several reasons, including the deliberate withholding of certain materials by the supervisors, the deliberate assignment of the best teachers to the middle-class neighborhoods, and the conviction on the part of some teachers that the ghetto student's ability is limited and that he really doesn't need to know the same thing other students learn.

In some cases--even here at Central State--some teachers appear to feel that ghettoized students are basically inferior. They do not consider the deficiencies that have been built into his high school education. Some do not want to teach what needs to be taught.

Our conclusion is that Central State has peculiar and particular problems and cannot be cast in the same mold from which the shapes of other Ohio institutions of higher learning are made. More equipment and more learning tools are needed.

Central State should be geared to solve the problems of its students--not the typical problems of students who are in other universities and from other backgrounds.

Central State's mission should be that of identifying and remedying special and peculiar problems and thereby preparing the differing student to be measured by the same yardstick that measures other citizens.

Central State is a unique institution with unique problems and unique structures. It must work by using unique methods.

Its allocating of personnel and financial resources, therefore, must of necessity be different and unique.

'Busing' racism should sober blacks

The more I read about the busing controversy the more firmly I believe we must do all we can to assist our African brothers and sisters.

Why?

Simply because many of us and our children--in quest of dignity and manhood--may want to join the African aborigines and help build a great union of African states--help black people win their rightful place in the cosmos of nations and in the dignity of racial self-determination.

My impression is that the European settlers--the so-called "Americans" who intruded upon this continent and seized the Indians' native land--have absolutely no intention of permitting racial equality to exist in America whenever the black man is involved--Supreme Court or no Supreme Court.

I know full well that some of our brothers and sisters are "delinquent"--for they bear the marks of slavery and are deficient in cultural values cherished by the so-called "white middle class."

We must remember that some of our kinsmen are the sons and daughters of recent refugees from the terrible plantation system and are victims of educational and cultural deprivations deliberately designed and perpetuated by the Southern white power structure.

And in the ghettos of the North also, to which they have come, they have been victims of gross inequities in education, employment, housing and general existence.

In their hard fight for sheer survival, their cultural and educational development often has been stymied.

But when we see what progress American whites have made, we become very hopeful.

Why?

Simply because most of those who object to busing for purposes of integration are the descendants of the deprived and despised Europeans who came to America AFTER our black ancestors were here.

They were the LOSERS in Europe--the landless and hated peasants, low-class laborers, generally illiterate and frequently untrained. "America has been populated generally by the rejects of Europe." They were the losers--just as we who came here on slave ships were the losers in Africa.

This large mass of people, arriving on these shores generally from 60 to 150 years ago, conquered a so-called wilderness, become a middle class and now condemn those whose situation is similar to that of their close ancestors!

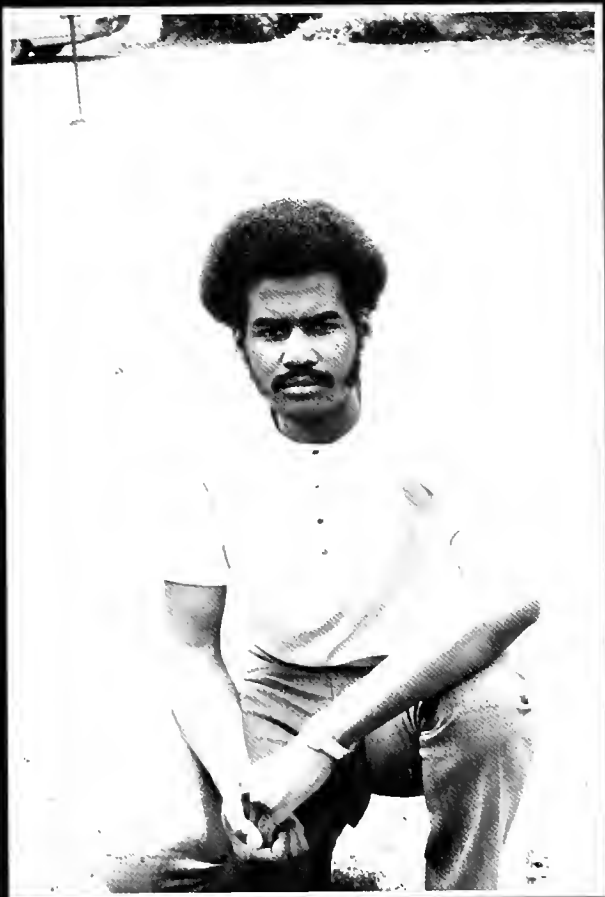

Black people, too, can conquer land--a land much more generously endowed with natural resources than America. The difference is that our kinsmen will be conquering the resources of their ancestors' native home--not the land stolen from the nearly exterminated native Indian population against whom racial genocide was employed.

This controversy over busing is good, for it reminds black people again of the seeming hopelessness of their present situation in America. It reminds us that we must make our homeland--Africa--powerful and internationally dominant.

Russia did it in about 50 years. China did it in about 25 years. Africans, with our help, can do it too, in short time!

The dignity of our people must be restored at all costs. Let us work with our African kinsmen at every opportunity. Their progress is the key to international respect and black power!!

Money...and Mouths...

BY CORBETT A. PRICE

The Central State University Alumni Association met last Friday through Sunday in Dayton in its annual off-campus gathering. Several hundred Old Grads from various cities across the country were there and participated in much hellingo, back-slapping, and reminiscing of old times.

They discussed problems, offering sometimes simplistic and sometimes sophisticated solutions, and they duly impressed one another with their importance, standing, and general bigness.

But what about big money?

We learn that the entire association with a membership of more than 7,000 graduates managed to put together only \$8,000 last year--about \$1.12 per graduate.

Is this enough to justify big thinking and big planning? Is this all that the Central State graduate is able to contribute to his alma mater? About 400 new names join the ranks of CSU alumni each year. Is this what we present students should expect to contribute?

The present alumni are not setting a good example for the oncoming graduates. Why?

Central State has a big chore to undertake. The chore is that of redefining Central State's image to its own alumni in order that these CSU alumni will think more positively of their own alma mater.

People spend money for whatever they want--and they establish priorities. If each CSU graduate would contribute the cost of a bottle to liquor each year to the alumni fund, the sum would be nearly \$50,000--enough to set up a new and special alumni office not responsible to the administration--the goal some of the Dayton chapter people were talking about last week.

If each graduate would contribute the cost of a package of cigarets each week to the alumni fund, the sum would net about \$140,000 a year for the alumni fund.

This amount would be enough to draw interest for scholarships for quite a few needy students.

Let us hope that the University becomes able to reveal itself in a better light to its own graduates and thus induces the 7,000 alumni to assume their rightful obligations.

We oncoming graduates need good models by which to pattern our lives. We are not getting the desired patterns--the patterns of giving--insofar as contributions to the CSU Alumni Association are concerned.

We heard a lot of mouthing-off and cheering of various graduating classes. Mouths were big. Now what about the money?

IT DOESN'T MAKE CENTS

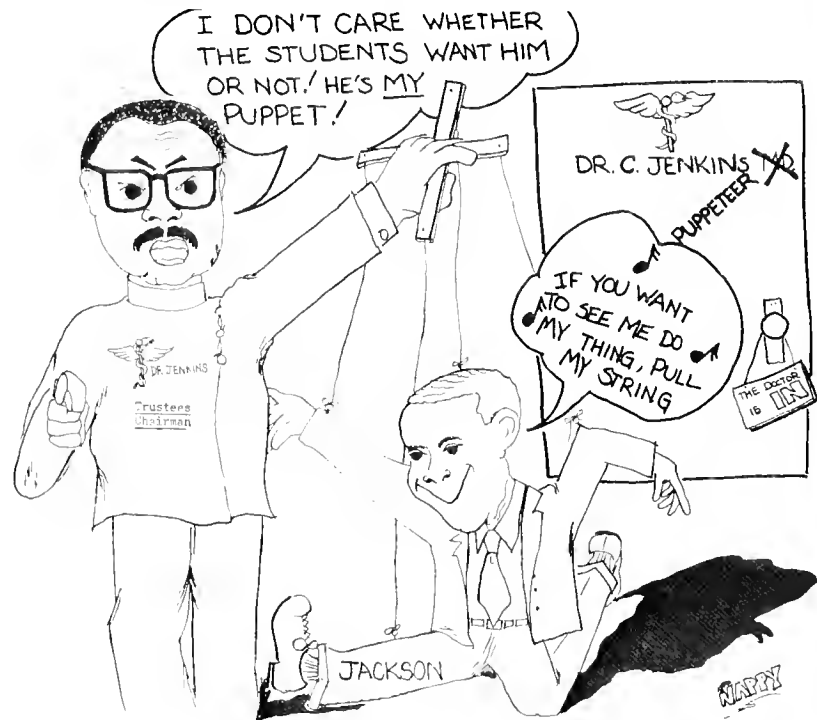

Hector Senuoke wrote "It's Time for Socials" during the year.
